More versatile than ever!

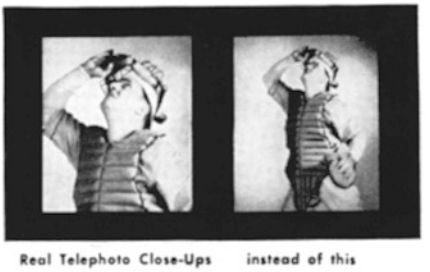
From far and wide . . . there's nothing like your

argus c-4 with interchangeable LITHAGON LENSES

Become the proud owner of these precision-built Lithagon lenses (made in Western Germany especially for your Argus C-4), and you've got everything! You can zoom in on action scenes and dramatic close-ups from almost any distance! You can get wide-angle shots with almost Cinemascope depth! So inexpensive—and you can put them on in seconds!

LITHAGON LENSES COUPLE WITH YOUR RANGEFINDER AS PERFECTLY AS YOUR PRESENT LENS!

Once your dealer mounts the G-A bayonet lens mount on your C-4 (at a very small cost), you're on your way to snapping the most exciting pictures you've ever taken! *Tested by Argus engineers and fully guaranteed.*



Real Telephoto Close-Ups instead of this

Real Wide Angle Spreads instead of this

← "ZOOM-VUE" VIEWFINDER → $16.95

LITHAGON 35mm f/4.5 Wide-Angle: Designed without the curvature commonly found in similar lenses, and therefore free of all distortion. Has all the features of the telephoto. **$66.50**

LITHAGON 45mm f/1.9 High Speed Semi Wide-Angle also available. Designed for color photography shots under poor light conditions, a feature usually available only with expensive foreign cameras. Has all the features of 35mm wide-angle. **$99.50**

LITHAGON 100mm f/4.5 Telephoto: 4 elements, hard-coated, color-corrected; click stops from f/4.5 to f/22; built-in filter holder and sunshade; optical viewfinder optional. **$66.50**
